EXPLANATION OF CROCHET STITCHES.

Chain.—Make a slip knot on needle, draw thread through this loop. Draw wool through second loop and continue for whatever length of chain is required.

Single Crochet.—Put hook through work at stitch indicated in directions; draw thread through work and through loop on needle at same time. This is sometimes called Slip Stitch

Double Crochet.—Put hook through work, thread over hook and draw through, making two loops on needle; thread over again and draw through both loops.

Treble.—Thread over the needle; hook through work; thread over and draw through, making three loops on needle; thread over, draw through two loops; thread over again and draw through remaining two.

Double Treble.—Thread over hook twice; hook through work; thread over and draw through, making four loops on needle; thread over and draw through two loops, then the second two, and lastly the remaining two.

Long Treble.—Thread over hook three times; hook through work; thread over and draw through making five loops on needle; thread over and draw through two at a time.

Picot.—A Picot stitch is made by working 4 chain, then making a double crochet in the fourth chain from needle.

Star Stitch.—On a given number of chain pick up four in addition to the loop on needle, thus making five stitches; draw wool through all five together; then make one chain. For next star draw thread through the hole under the one chain; then through the back thread of former star and pick up two more chain and draw through all five loops together. In second row—make three chain to commence. Pick up the second and third of these, then the back thread on top of star below, and lastly draw thread through eye of star below, and draw wool through all five loops together; 1 chain, and proceed as before.

*Is used to indicate repetition of preceding instructions.

Calls for finishing off cords at waist, etc. Work 4 chain and join into a ring, into which put 14 treble (8 chain to begin counts as 1st treble), then make 1 double crochet into each alternate treble (this will draw it almost close up). Break off end of thread and sew on to end of cord.

Foreword.

"What to Make for Baby" has received a very warm welcome, and it is a great pleasure to present the new edition. Every article has been thoroughly revised, and wherever it was possible to make the directions more clear and simple, or to improve the book in any way it has been done. Several additional patterns have also been included.

Now that almost every one is busy knitting or crocheting, it seems more than ever necessary that a special book should be devoted to the "all important" baby. Every mother loves her little one to look its very best. Having made and used all the articles in this book, the writer knows that every garment will fit well, give satisfaction to the worker, and make the babies look their prettiest.

The finished garments will be even more attractive than the illustrations make them appear. In the majority of cases the patterns are entirely original.

No. 49—FIRST STAYS FOR BABY.

MATERIALS.—Baldwin's 4 ply wool, and fine bone needles.

Cast on 40 stitches.

1st ROW.—Plain.

2nd ROW.—Purl.

3rd ROW.—Knit 2, wool over the needle, knit 2 together, knit plain to the end of the row. By putting the wool over the needle to make a stitch, and knitting the next 2 stitches together, you make a larger hole in the knitting without increasing the number of stitches on your needle. This makes a fancy edge along the top of the stays.

4th ROW.—Plain.

5th ROW.—Knit 2, wool over the needle, knit 2 together, purl to the end of row.

6th ROW.—Purl to 4 stitches from the end of the row. Knit these plain.

Continue in the same way, working from the 3rd row only alter the commencement of the top row to make the arm hole.

38th ROW. Knit 1, knit 2 together, wool over needle, knit 2 together, knit to end of row. Each of

the top rows up to the 57th must be commenced in this way.

58th ROW.—Like 6th. Repeat from 3rd to 6th rows twice. Then increase at top, to complete arm hole.

67th ROW.—Knit 2, wool over needle, knit to end of row. Increase each top row in this manner to 86th row.

87th ROW.—Like 6th row. Repeat from 3rd to 6th row 14 times.

Repeat from the 39th to 87th row to form other arm hole.

Repeat from 3rd to 6th row 9 times, and cast off. Make shoulder straps of ribbon, and sew on three narrow ribbons each side of back to tie. These strings should be sewn on about two inches from the edge at one side, so that the stays will overlap, or may be altered to fit the baby.

No. 50—INFANT'S BINDER.

MATERIALS. 2 ply, and 3 ply wool. No. 14 steel needles.

Cast on 118 stitches, with 2 ply wool, 36 on each needle.

Knit 2 plain, 2 purl, for twenty rows. Take 3 ply wool, and knit plain for forty rows, then 2 ply again, and knit 20 rows, 2 plain, and 2 purl. Cast off loosely.
